

How to register for disinfection?

Requirement to disinfect

- Every angler – both local or external – has to register **before** starting fishing
- For **local anglers** registration is valid for the whole season
- For **external anglers** registration is valid for two weeks
- Fishing equipment must be disinfected **before** leaving to another river or to other parts of the same river

Disinfection rules for local anglers

- Registration has to be done before starting fishing at a licensed disinfection station. A receipt is send by e-mail or SMS
- Registration is valid for the whole season
- You can be declared a local angler if you use your fishing equipment only in river Driva throughout the whole season

Disinfection rules for external anglers

- Registration has to be done at arrival at a licensed disinfection station. A receipt is send by e-mail or SMS
- Registration is valid for two weeks
- In case the registration expires before fishing is finished licensed disinfection stations can prolong the registration for another two weeks
- One day before registration expires anglers will receive a reminder via SMS
- Before departure, fishing equipment has to be disinfected at a licensed disinfection station. This service costs 100 NOK and a receipt is send by e-mail or SMS

Licensed disinfection stations in the Driva region

- Circle K petrol station in Sunndalsøra
- Trædal hotel and Turistsenter in Sunndalsøra
- Shell petrol station in Oppdal
